SUMMARY

React Native SDE with 3+ years of experience building and shipping production-grade fintech and health applications used by 100K+ users. Skilled in React Native, TypeScript, WebSockets, state management, REST APIs, and cross-platform performance optimization. Experienced in scalable mobile architecture, real-time data systems, complex workflows, and performance profiling.

EXPERIENCE

Software Development Engineer (SDE)

Jan. 2026 – Present

Zanskar Tech Pvt. Ltd.

Bangalore, India

Nubra – Stock Broking & Investment App | [Play Store](#)

100K+ Downloads

- Built reusable React Native components for IPO, Mutual Fund, and SIP workflows, delivering a consistent cross-platform experience across Android and iOS while improving code maintainability.
- Integrated RESTful APIs, WebSockets, and asynchronous data flows using Zustand, enabling real-time market updates and reliable state management for investment journeys.
- Profiled and optimized native memory usage using Android Studio Profiler, reducing peak native memory consumption by 25%, improving app stability on lower-end devices.
- Optimized graphics/GPU memory usage through image compression and efficient rendering practices, reducing memory footprint by 45%
- Collaborated with backend engineers, product managers, and designers to deliver production-ready fintech features while leveraging Bugsnag crash analytics to monitor, diagnose, and resolve production issues.
- Leveraged AI-assisted development tools including Claude AI and Cursor AI to streamline debugging, code optimization, and feature implementation, improving development productivity.

Software Developer

Jun. 2023 – Jan. 2026

Wellness360 Technologies Inc. | [Play Store](#)

Hyderabad, India

- Developed and maintained cross-platform React Native applications for Android and iOS using reusable, scalable components while ensuring consistent UI and user experience across platforms.
- Built Progressive Web Applications (PWA) using Capacitor, integrated native Android and iOS SDKs, and implemented Firebase Push Notifications to extend platform capabilities and improve user engagement.
- Integrated RESTful APIs with JWT authentication and managed application state using Redux Toolkit, enabling secure communication, reliable asynchronous data handling, and improved application maintainability.
- Implemented CI/CD pipelines using GitHub Actions and Fastlane, streamlining application versioning, automated builds, and deployment processes for Android and iOS releases.

PROJECTS

Developer Portfolio | *Next.js, TypeScript, Tailwind CSS*

- Built a responsive and SEO-friendly developer portfolio using Next.js, TypeScript, and Tailwind CSS to showcase projects, technical skills, and professional experience.
- Implemented reusable UI components, responsive layouts, and optimized performance to deliver a fast and consistent user experience across devices.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Frameworks: React Native, React.js, Next.js, Node.js, Express.js

State Management: Redux Toolkit, RTK Query, Zustand, Context API

Tools & Technologies: REST APIs, WebSockets, JWT, Firebase, Git, GitHub, Android Studio, Xcode, GitHub Actions, Fastlane, Capacitor, PWA, CleverTap

AI Tools: Claude AI, Cursor AI

EDUCATION

Savitribai Phule Pune University

Pune, India

Master of Science (M.Sc.)

Jun. 2019 – May 2021
